

Personal Expense Tracker Application

Ideation

Idea 1: Excel tracking :

- Allocate separate columns for each type of expenses.
- Use excel formulas to calculate the total amount spent in a particular period

Idea 2: Using Bank SMS

- Note down all transactions.
- Keep track of money spent on each track and calculate the expenses.

Idea 3: Pencil and Paper

- Write the money spent under different categories.

Idea 4: Expense tracker Apps

- Log in each transaction in the app
- It Provides a pictorial representation of expenses.

Idea 5: Envelope systems

- At the start of each month put cash in envelopes labelled with the tags.
- At the end of each month one can identify the money spent under different categories.
